

# COVID-19 UPDATE

21 March , 2020

The National Institute for Communicable Diseases (NICD), a division of the National Health Laboratory Service, as of 21 March 2020, can confirm 38 new additional cases that have tested positive for SARS-CoV-2, the causative pathogen for COVID-19. To date, South Africa has a total of 240 confirmed COVID-19 cases since the announcement of the first confirmed case by the Minister of Health, Dr Zwelini Mkhize, on 5 March 2020.

Of the 38 newly confirmed COVID-19 cases, we wish to confirm the first imported COVID-19 case in the Eastern Cape Province that tested positive for SARS-CoV- 2 from a 28-year-old female who travelled to Germany. The Gauteng Province continues to dominate the total share of confirmed COVID-19 cases, followed by the Western Cape Province and the KwaZulu-Natal Province, respectively. The provincial breakdown of the 38 new cases is as follows:

## Eastern Cape Province

- A 28-year-old female who travelled to Germany

## Gauteng Province
