

COVID-19 UPDATE

22 March , 2020

The National Institute for Communicable Diseases (NICD), a division of the National Health Laboratory Service, continues to monitor COVID-19 trends and transmission rates. The NICD, as of 22 March 2020, confirms 34 new additional cases that have tested positive for SARS-CoV-2 bringing the total number of COVID-19 cases to 274. Of the 274 cases, 208 (76%) have a history of travel from an area where COVID-19 is circulating. The majority of those without international travel history have had recent contact with persons who have travelled internationally.

The Eastern Cape Province has recorded its second case. The majority of the new cases were reported in the Western Cape Province, 14, totalling 88 cases to date. Of the new cases, the total provincial breakdown is as follows:

Eastern Cape Province

- A 22-year-old male who travelled to Austria, Germany and the United Kingdom

Free State Province

- A 49-year-old female with no international travel history
- A 26-year-old male with pending travel history
